College Settles Whistleblower Lawsuit

By Ariel Carmona Jr.
SUN Staff Writer

The latest in a series of pending lawsuits against Northern New Mexico College administrators was settled late last week, ending a long-running legal feud between the College and a former employee.

First Judicial District Court Judge Francis Matthew dismissed with prejudice, May 13, the Whistleblower Lawsuit filed by former director of Information Technology Angelo Jacques, dating back to Aug. 4, 2014.

Following the court's decision to grant an extension of time to file dispositive motions on March 28, pre-trial conferences and jury selection were scheduled for the months of June and July respectively, but the case never made it to trial.

Contacted Tuesday, Richard Rosenstock, an attorney representing Jacques, said per state statute, he would not be able to talk about the details of the case for another six months.

"It's settled, we had a hearing scheduled, but all that stuff gets pushed off," he said.

Northern interim president Domingo Sanchez did not return calls for a statement on the settlement.

The College was being represented in the case by Santa Fe-based firm Long, Komer & Associates.

Sanchez served as vice president of Finance and Administration and was Jacques's immediate supervisor when the latter was working for the College starting in the fall of 2012.

At the time he began his employment with the College, Ricky Serna was serving as vice president of Institutional Advancement, Henrietta Trujillo was the finance director and Bernie Padilla was director of Human Resources.

Only Sanchez and Trujillo remain employed by the College since the lawsuit was originally filed.

Trujillo said she was not aware the Jacques lawsuit had been settled and did not know if the law firm representing the College had been directed to settle any cases pending against the College. She said Sanchez and the attorneys have been handling all of the College's legal issues.

Sanchez recently went on record, March 15, when the College came to terms in the lawsuit filed by

former Environmental Sciences director James Biggs. At that point, Sanchez said administrators are not allowed to comment on legal matters, similar to the way they are restricted when speaking about personnel issues.

Biggs claimed his problems with the College started after he questioned Sanchez about his lack of financial management. He said administrators demoted him and reassigned him to the El Rito campus because he was critical of administration, among other things, such as fiscal mismanagement and misappropriation of federal grant funds.

Similarly, Jacques's complaint for damages under the state's Whistleblower Protection Act arose out of what he claimed was administration's efforts to punish and discredit him and to deprive him of employment after he communicated to them his concerns about "rampant mismanagement, improper employment actions, favoritism and misuse of public funds and equipment," discovered while he worked as Information director for the College.

In his lawsuit, he further alleged that administrators acted to discredit him as a result of his refusal to take part in activities or practices at Northern New Mexico College that constituted unlawful or improper acts.

The New Mexico State auditor's office found that during 2012, among other concerns, the College lacked adequate internal financial controls and protections against irregularities.

The state auditor determined internal controls were so deficient that errors and irregularities could go undetected, financial data was not secure and there was failure to segregate certain financial duties, which increased the risk of misappropriation of assets through error or fraud.

According to Jacques's allegations against his former employer, he provided Sanchez with a preliminary assessment of the state of the technology infrastructure and informed him there had been serious mismanagement of the College's infrastructure. He also informed Sanchez there was no control of data integrity and the College was completely lacking in inventory control.

This deficiency was later discovered by an audit conducted by the state auditor's office.

Jacques further alleged that College administrators were using equipment that was purchased for the students through certain federal grant funds. He claimed that the College obtained more than \$5,000 of technology equipment through grants, but most of it could not be accounted for.

At the time, Serna was responsible for managing the federal grants and Trujillo, a close associate of Sanchez, was responsible for tracking how grants were used. Jacques also alleged virtually all service contracts had been improperly approved by Trujillo and the College was wasting more than \$4,000 a month by improper reviews of approved contracts.

Jacques did not return calls seeking comment on the lawsuit settlement, but went on record in the past to say he would be limited by state statute from disclosing the terms of a possible settlement, or to provide more feedback on his legal action against the College.

House veteran challenged: But primary opponent isn't talking

By Mark Oswald / Journal Staff Writer

New Mexico's longest-serving legislator is facing an election challenge from a rising power in Rio Arriba County politics.

"Let the people decide," said state Rep. Nick Salazar of his House District 40 race with Rio Arriba County Commissioner Barney Trujillo.

Salazar, 87, who's served in the House for more than four decades, added: "There's nothing new about me. I think people know who I am. After 44 years, if people don't know who I am and what I do, they'll never know."

What Trujillo, in the middle of his second four-year term on the County Commission, has to say about the race, Salazar's long tenure or ongoing controversies in Rio Arriba has been hard to track down.

The **Journal North**, despite repeated efforts, was unable to reach Trujillo over roughly the past two weeks as the June 7 Democratic primary approaches.

Voice or text messages were left at the phone number listed for Trujillo on the candidate list posted by the Secretary of State's Office; at a phone number on his campaign finance reports filed with the secretary of state; and at two phone numbers for a local campaign consultant whose firm has been paid by Trujillo's campaign, according to the finance reports.

The **Journal North** also sent an issues questionnaire and other messages to the e-mail address Trujillo provided to the secretary of state and an e-mail address listed for Trujillo on the Rio Arriba County website. There was no response to any of the **Journal's** messages.

The winner of the Democratic primary will face off in November against Republican Jerald Steve McCall of Angel Fire in sprawling District 40, which also extends into Mora, Colfax and San Miguel counties.

In October, the Democratic contest started on an odd note when Trujillo, of Chimayó, announced he would be a candidate and said that he understood that Salazar, of Ohkay Owingeh, was retiring. Trujillo said he would be "honored" to succeed Salazar. But Salazar said at the time that he hadn't made up his mind and in February confirmed he was running for another two-year term.

In March, Trujillo accused Salazar of trying to ruin his candidacy by filing complaints about Trujillo with the state Attorney General's Office, which is using the state Inspection of Public Records Act to seek documents from Rio Arriba County related to projects for which Trujillo has been under press scrutiny.

Trujillo told the Santa Fe New Mexican that he questioned the timing of the AG's inquiries and that Salazar's campaign wants to be able to say, "Oh, hey, look, the AG's Office IPRA's Barney and his campaign."

The **Journal** recently obtained, via its own records request, the information request that the Attorney General's Office submitted to the county in February.

Some of the requested documents relate to a county-financed Chimayó playground or "beautification project" that led to charges last year against a local contractor, brought by the state Construction Industries Division, for contracting without a license.

The Attorney General's Office asked for all financial documents about the park and beautification projects, any funds "expended by the County Commission or individual commissioners that are not standard operating expenses," lobbying services and "County Commissioner Barney Trujillo's County related activities."

Another controversy

In October, the Rio Grande Sun weekly newspaper reported that the AG's Office confirmed an inquiry into another controversy, this one over a \$50,000 no-bid annual contract granted to Trujillo by the Española School District to promote the local public schools.

About two weeks after Trujillo was first given the school district contract in August 2014, the county hired a school board member as human resources director, according to the Sun. The county manager said she was hired because of her qualifications.

The Sun's October article quoted James Hallinan, spokesman for the AG's office, as saying via e-mail, "This inquiry is ongoing and we will update the media as soon as we have a public update."

Hallinan told the **Journal** recently that the AG's office can't say anything about pending investigations. "The Office of the Attorney General fully reviews every complaint received and investigates where appropriate," Hallinan said.

"It is the policy of this office to neither confirm nor deny an existence of an investigation, in order to preserve the integrity of our investigations and protect those individuals not charged with a crime."

Salazar, for his part, doesn't want to talk about Trujillo. "I don't care to say anything about my opponents," he said.

"He can say anything he wants about me," said Salazar. "They can say I'm too old or that I'm blind... I run my own campaign, and they can say whatever they want."

He emphasized his experience with and "institutional knowledge" on the state budget gained from service on the Legislature's finance-related committees. "I've been there when we've had a lot of money and when we've been broke," he said. He said the current strained state budget "is a very hard

one.” His campaign also emphasizes his support for funding of acequias that was vetoed this year by Gov. Susana Martinez.

“I want to concentrate on the budget and whatever is there, make sure we get a share for northern New Mexico,” Salazar said.

Salazar is retired from Los Alamos National Laboratory. Trujillo worked in the State Land Office from 2000 to 2010.

I am forwarding this to you solely in regard to the issue of NNMC spending substantial amounts for advertising insertions in the Valley Daily Post in light of the close association of that publication with the "It Takes a Valley" group and in light of the close association with the Valley Daily Post/It Takes a Valley with the president of the NNMC Board of Regents and senior NNMC officials and in light of the possibility that other NNMC resources are perhaps being used improperly to benefit VDP/ITAV.

"It Takes a Valley" is run by Tania Sanchez (perhaps one of the unidentified people in photo below—third from left or third from right?). As of February, 2016, ITAV has a regular column in the VDP. NNMC is a heavy paid advertiser in the VDP. The VDP recently ran an idiotic "puff piece" on Anthony's-at-the-Delta and its ownership family, the Garcias, of which NNMC Board of Regents Chayo Garcia is a member by marriage (Anthony is her brother in law). Tania Sanchez was formerly a member of the Española city Council, resigning two months ago (and withdrawing her reelection bid in 3/1/16 city council election) since—according to her—she and her family were moving from the city and had sold their home in Espanola. One unverified rumor is that Tania/family had moved to Nambe.

On 12/10/16 (NNMC BOR meeting (just prior to Tania's actions re: her city council position) Chayo proposed to the BOR her recommendations for the members for the "Presidential Search Community Advisory Team." Chayo's list included Tania Sanchez. The BOR accepted Chayo's recommendations along with two additional team members from El Rito selected by **la Sociedad Venceslao Jaramillo**.

On 2/20/16 the VDP, ITAV and KDCE radio station co-sponsored a forum for all candidates in the 3/1/16 city council election. The site of this forum was the auditorium at NNMC. Whether or not NNMC charged the sponsors of this forum for use of the auditorium is not yet determined.

From a previous e-mail message re: the "founding" of the VDP in March, 2015.

County Manager Suspended

(SUNfoto by Barron Jones) Rio Arriba County Manager Tomas Campos walks toward his seat, as County Commissioner Danny Garcia prepares to take his seat, during a special Board meeting Tuesday morning. Commissioners convened the meeting to place Campos on leave after an accumulation of alleged misdeeds that culminated in Garcia's brother being awarded approximately \$10,000 in trucking jobs.

Commission gives Campos one-week suspension

By Barron Jones
SUN Staff Writer

Citing the trucking contracts awarded to Rio Arriba County Commissioner Danny Garcia's brother, "as the straw that broke the camel's back," the County's governing body suspended Manager Tomas Campos for one week without pay, effective Tuesday.

The suspension comes 12 days after a Rio Grande SUN story revealed that Garcia's brother, the owner of Ernest Garcia and Sons Trucking, received two County contracts to haul materials from locations in Texas and Utah.

Commissioner Alex Naranjo said disciplinary action is the result of a handful of infractions that resulted in the Commission's directives not being met.

"It is just an accumulation of many things not being done after repeated requests by this Commission," he said. "When citizens and taxpayers are complaining about the roads and many other things, we turn to the County manager to show us and tell us where we are at with all of these issues and six, five months later, nothing has been done, then we have a problem."

Naranjo summoned the County's key staff to the Tuesday special meeting because he said some of their actions or inactions led to Campos's suspension.

But, he said the situation involving the trucking contract bothered him most, especially since his investigation revealed Garcia allegedly had nothing to do with his brother getting the contract. Naranjo said he conducted an investigation on his own.

"Danny Garcia knew nothing about it, but it was done with the County manager's approval and consequently, the integrity of this Commission was compromised," Naranjo said. "I have been in politics since I was a very young man and I have had a clean record and I am not going to jeopardize that record for somebody that doesn't do what needs to be done in open government."

He said Campos could have put a stop to the hauling contract but he didn't, so the "buck stops with him."

County Grants and Contract Administrator Jon Paul Romero awarded Ernest Garcia and Sons Trucking the job.

Garcia agreed with Naranjo's assessment that the decision to suspend Campos didn't come easy, but the move was necessary to keep the County on track.

"There are a lot of things we need to be proud of," he said addressing the directors who attended the meeting. "Rio Arriba County is a great county to work for and we have done great things. For the past three-and-a-half years, since I have been a commissioner, we have been talking to Mr. Campos and Mr. (David) Trujillo about how we want to move forward with this County professionally and with integrity."

Garcia said he accepts the scrutiny he's received as a result of the contract, but contends he knew nothing of the award until after it was brought to his attention.

"The first time I heard of it was when Commissioner Naranjo called me and told me what was happening," Garcia said. "I said I didn't know anything about it, and I really didn't. I was being truly honest with him."

Garcia told the department heads that although they may have made mistakes in the past, the situation with the trucking contract should be "a lesson learned for all of us."

"We have to work with integrity in this County," Garcia said to the room full of managers.

But before this can be done, County employees must focus on the jobs they are paid to do.

"I ask you please don't let it happen again," Garcia said. "If you think that you guys are doing me a favor politically by granting contracts to my family, it is not a favor. You shouldn't get involved in politics. Let us, the Commission, worry about our politics."

Campos will return to work Dec. 1. Until then, Deputy Manager David Trujillo will assume management duties.

" Yolanda you really don't get it do you? We all want locals to get the work, but all local (real) contractors should have a fair shot at these jobs. These thieves are just handing them out to family and friends , and to Danny I'm betting that there is a recording out there that just maybe Tomas had something to do with, that you probably dont want coming out. " Balderas is on Facebook and you can communicate with him. Same mentality of the Garcia Nation. Not wrong to fix roads but the method and underhanded ways are Garcias. Pura movida en el Canjilon. You sound like Danny, he was unaware also y eso es pura estupidad... "

" Here is the ink to file a complaint:

<http://www.nmag.gov/investigations-complaint.aspx>

Or call (505)827-8000

Nothing can be done unless people complain. How do people expect Mr. Balderas to do anything if he doesn't know there is a problem? "

" From what I've been seeing and reading it looks like the biggest peracites are Napoleaon, Marty Hughes, Tomas Campos, John paul, and Danny Garcia. I see Audits, Investigations, and jail time in your futures. "

" A bunch of crooks. Barney is part of the movidas. He is staying low because he intends to run for State Representative. (Not) RAC will never move forward with all this crooks running the county. All they are doing is simply helping themselves. KARMA cant wait. "

Sad day wrote on Nov 30, 2015 8:47 AM:

" Barney and Danny are the real ones making messes and got caught with hand in the cookie jar. That is why they had to find someone to be fall guy, so it was Tomas. This was an attempt to steer Danny and Barney clear of messes so it doesn't hurt their upcoming elections. Balderas needs to come in already. "
